DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

A fee for an extension of time is unnecessary since the reason for the amendment is to correct typographical errors, which are merely a formality.

Authorization for this examiner's amendment was given in a telephone interview with Garrettson Ellis on 28 December 2005.

The application has been amended as follows:

In claim 11, line 1 of the claim, after "The device of claim"

"23" has been replaced with --9--.

In claim 12, line 1 of the claim, after "The device of claim"

"23" has been replaced with --9--.

In claim 17, line 1 of the claim, after "The device of claim"

"23" has been replaced with --9--.

Art Unit: 3767

3. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the device having an elastomeric wall having an outer face entirely exposed to the exterior and being essentially free of longitudinally inwardly extending projections and where the device defines a passageway proportioned to receive and form an annular seal with a connector tub that is extended into the interior in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
